Motion Control Solutions
for your every need.

WWW.DCAUTO-MOTION.CO.ZA

A photograph of two men in a workshop setting. On the left, a Black man in a black polo shirt with white stripes on the sleeves is leaning over a workbench. On the right, a white man with grey hair, wearing a grey blazer over a dark sweater and a checkered shirt, is also leaning over the workbench. They are both looking down at a long, silver, rectangular mechanical component that is resting on the workbench. The background shows a workshop environment with blue shelving units holding various items, including boxes and tools. A red light is visible on a stand in the background.

DC AUTO-MOTION (PTY) LTD

Motion control solutions company **DC Auto-Motion (Pty) Ltd** was established in **April, 2010** with an intent focus to import and distribute a large range of **linear motion** as well as **rotary motion control components** to the South African and African industrial, electrical, mechanical and automotive markets.

We offer over 10 years experience, expert knowledge and know-how in linear and rotary motion control solutions.

Our business offers OEM, resell, machine retrofits and end user customers, high quality products at reasonable prices.

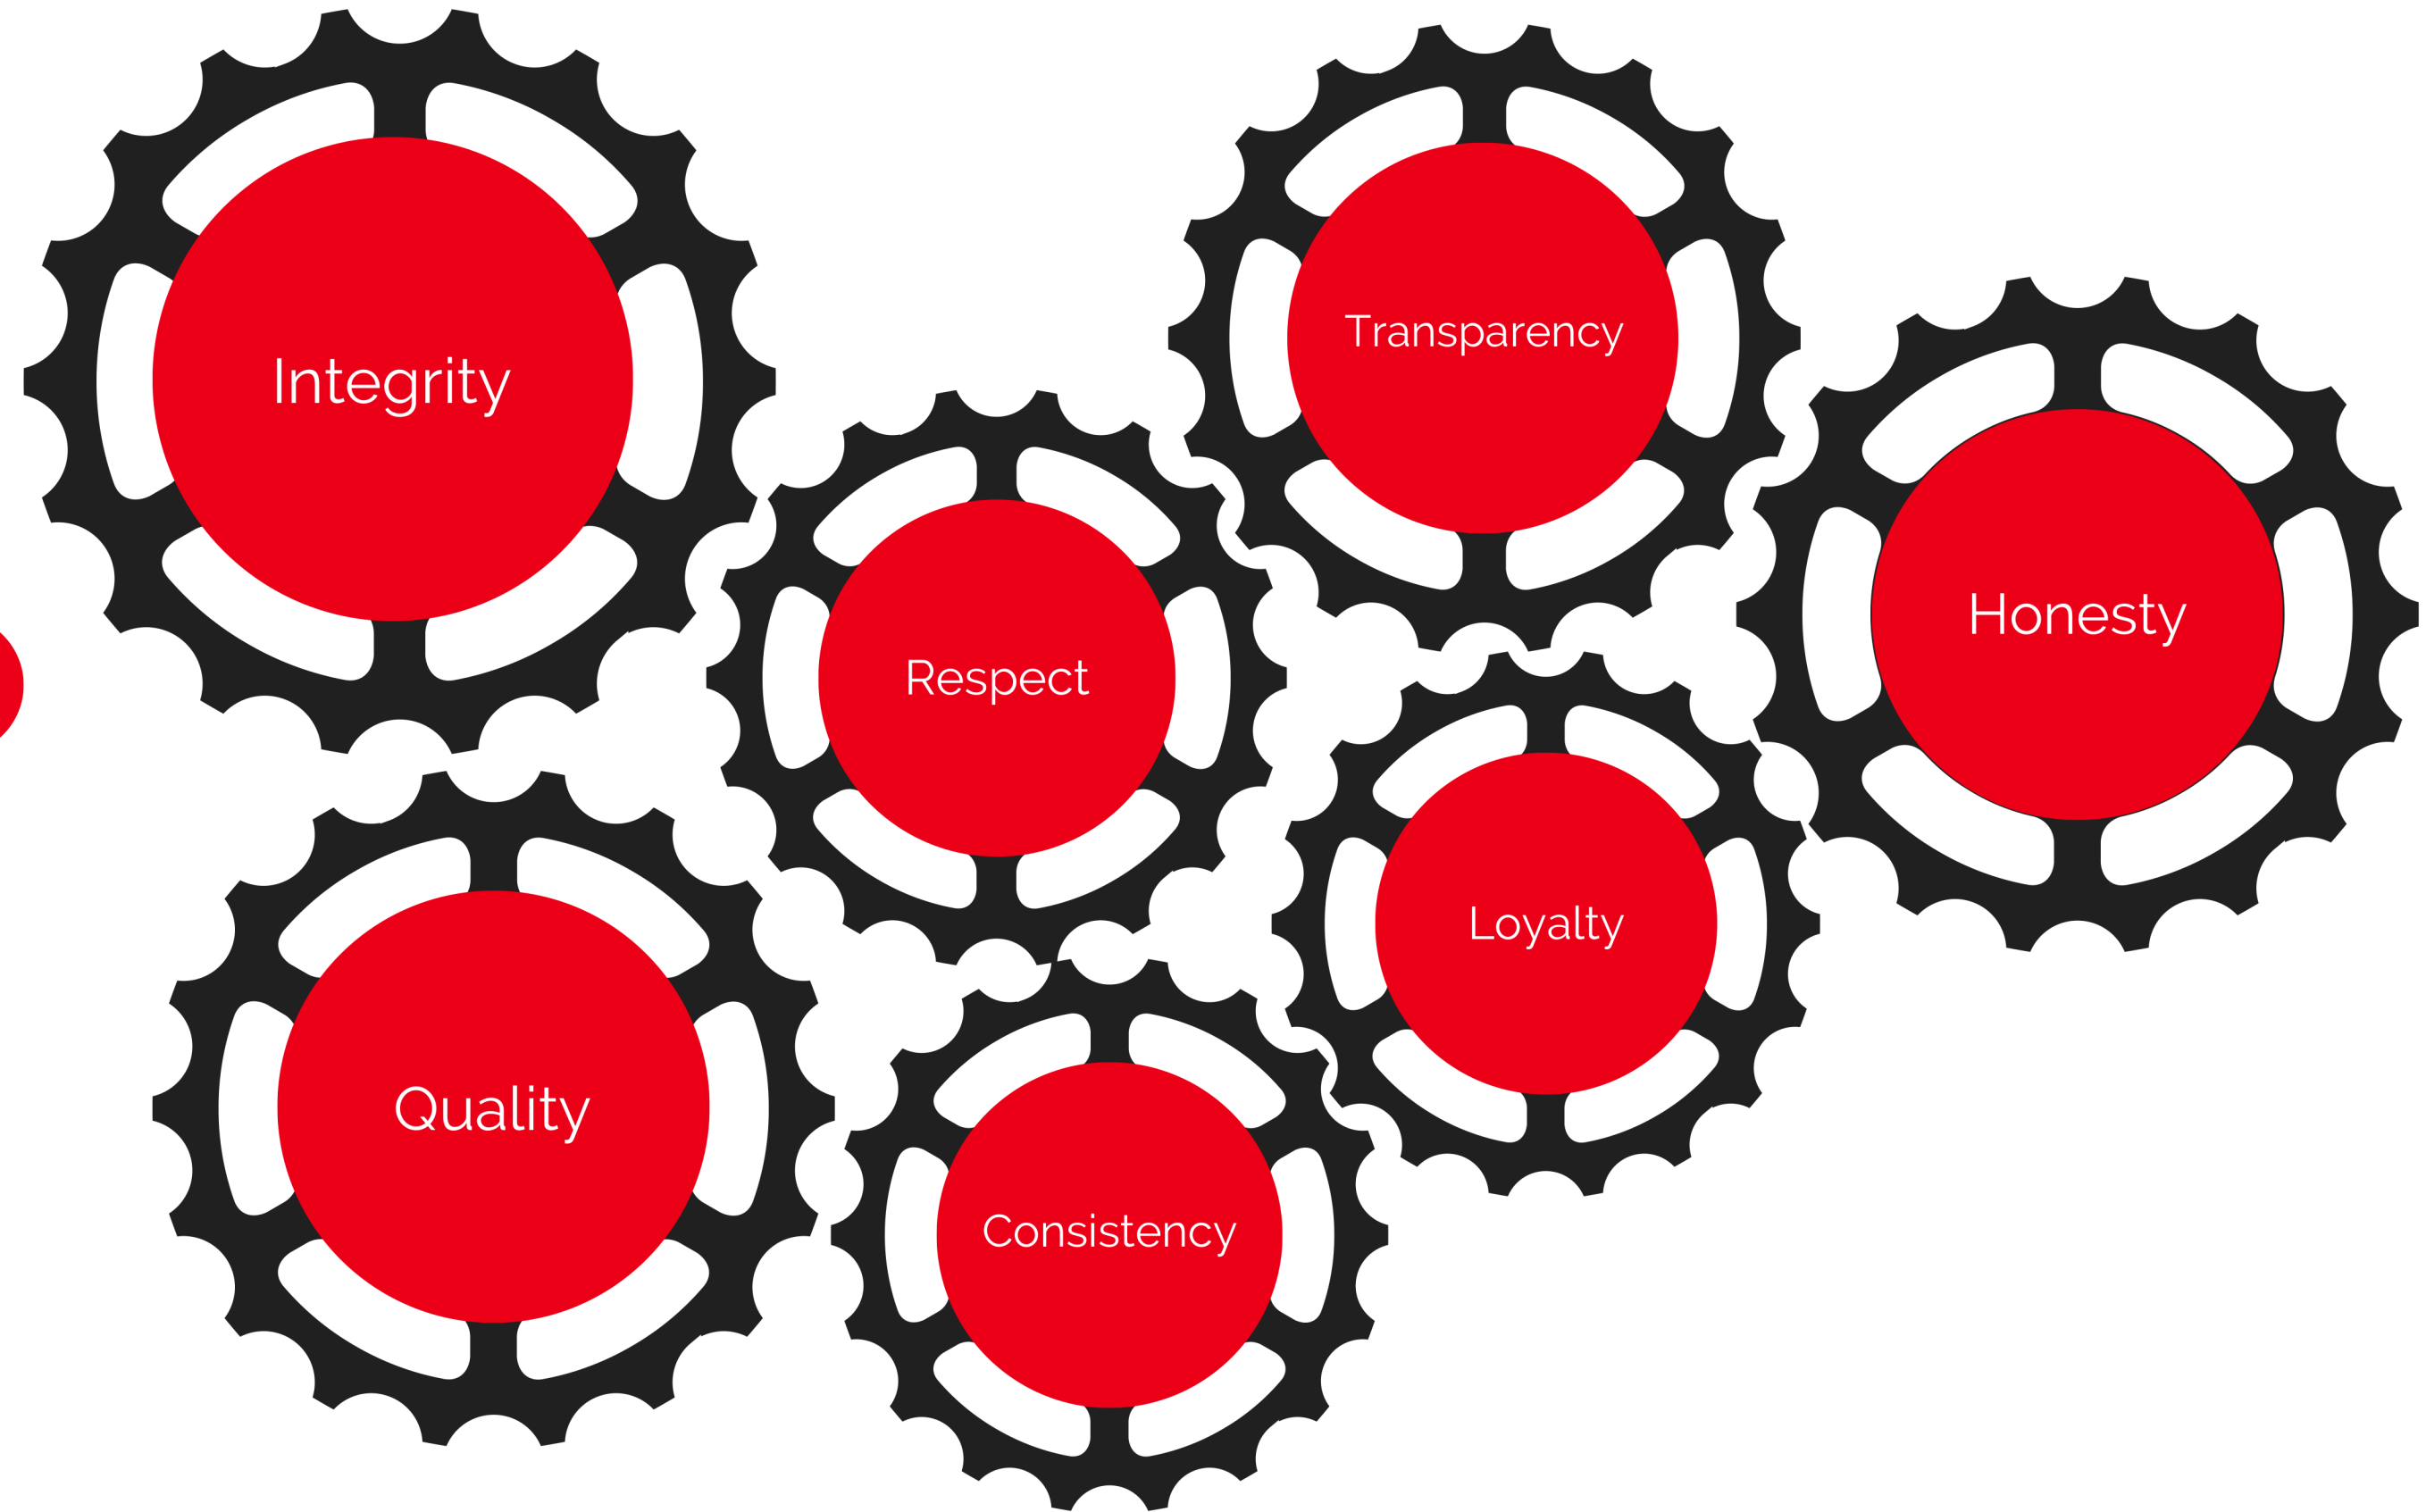

Becoming the industry Leader
in Linear and Rotary Motion
Product Solutions in the
Southern Hemisphere.

Vision

Mission

To be Pioneers of High Quality
Linear and Rotary Motion
Product Solutions to the
Mechatronics Automation,
Automotive, Mechanical and
Industrial Engineering Sectors.

OUR VALUES

Company Timeline

April 2010
DC Auto-Motion founded by Dave Cawood.

2011
1st official linear bearing product imported from South Korea and Taiwan. Incorporation of Kuebler Group, DC Auto-Motion received official distribution certification.

2013
DC Auto-Motion received the official THK certification to distribute to Africa.

March 2016
DC Auto-Motion moved to the current premises in Sunnyrock for a bigger office and warehouse.

2017
Official introduction of NBK products and DC Auto-Motion received the distribution certification from Rollon.

2020
DC Auto-Motion continues to thrive despite the Covid-19 pandemic.

2022
Official introduction of Zimmer product line.

2023
DC Auto-Motion received the official MiniTec certification to distribute to Africa.

2010
Introduction of T-Race (now known as Rollon) products, distributing their full product line.

2012
Moved into DC Auto-Motion's first operating facility, in Meadowdale. Official discontinuation of South Korean and Taiwanese linear products followed by the inauguration of THK Japan linear products.

2016 - 2019
During this period DC Auto-Motion grew rapidly and became a large success following the induction of THK products.

2018
Adel Cawood joined the DC Auto-Motion team as the financial director.

2020
Official introduction of Güdel product line.

LINEAR MOTION (LM) GUIDE PRODUCTS

THK CO. LTD JAPAN

Mechanical components developer and manufacturer THK is a world leader in linear motion technology. The company boasts an extensive product offering, which includes its creative ideas in Ball Spline, Ball Screws and Link Ball technology, which make the company pioneers in LM Guide Mechanisms.

In 1972, it became the first company in the world to develop and commercialize the Linear Motion (LM) Guide. THK's linear motion system enabled rapid improvements in the accuracy, speed and labour-saving potential of advanced mechatronic instruments.

DC Auto-Motion is the official distributor of THK's range of products including its world's first Caged Ball Linear Motion Guides, Standard LM Guides, LM Bushings, Precision/Rolled Ball Screws, Lead Screws, Precision Ball Splines, Precision Cross Roller Rings and Cross Roller Guides as well as LM Stroke, LM Actuators, Cam Followers and Grease Lubricants.

THK's entire product line is available on their global website. <https://www.thk.com>

THE ART OF SIMPLICITY

MINITEC SMART SOLUTIONS GMBH

Since it was founded in 1986, MiniTec has grown continuously from a specialist for miniature guides into a leading technology company. 420 experts in 11 locations in Germany, France, USA, Great Britain, Spain, Slovenia and China now develop tailor-made solutions for our customers. And more than 60 partners worldwide ensure reliable service and competent advice.

An integral element of the MiniTec philosophy is to maintain all essential competencies and components in-house and to optimise them in accordance with our high quality standards. This not only applies to their modular system, but also to their linear technology. They achieve profitability with maximum reliability by adhering to a strict modular principle, by avoiding superfluous product diversity and by simultaneously developing complementary CAD software.

DC Auto-Motion is the official distributor of MiniTec's range of products, including its modular systems, linear technology, and smart solutions. You can find more information about our product line on our global website.

THE ART OF SIMPLICITY

ROTARY MOTION/ELECTRONIC PRODUCTS

FRITZ KÜBLER GMBH GERMANY

Fritz Kübler are the leading specialists worldwide of position and motion sensors and offer individually tailored product and sector solutions, as well as solutions for Functional Safety. The owner-managed family business has 8 international group members and distributors in more than 50 countries. The Group's pillars of success include short reaction times, the overriding desire to inspire customers and a very high level of service.

DC Auto-Motion is the official distributor of Fritz Kuebler Rotary Encoders, Preset Counters, Slip Rings and Linear Measuring Technology.

LINEAR MOTION PRODUCTS

GÜDEL SWITZERLAND

The Güdel Group is a manufacturer of high-precision machine components and a provider of sophisticated automation solutions. Its spectrum of products ranges from linear guideways, racks, pinions and drives right through to linear axes and gantry robots.

Güdel assembles its products into systems with a high degree of control intelligence and complete plant installations, which can be used in the automotive, tire, metal, rail, intra-logistics, pharmaceutical, renewable energy, wood and aerospace industries. Güdel's technology is characterized by its innovation, quality and modularity. The Güdel Group has a workforce of approximately 1,200 employees worldwide in over 30 locations. The Group has been owned by the same family since its foundation more than 60 years ago. The Güdel Group has its headquarters in Switzerland.

DC Auto-Motion is the official distributor of Güdel's's range of products including its Linear Axes, Linear Track Motion, Turnkey Robotic Solutions, Spare Parts, Gearboxes and Linear Guideways.

Güdel's entire product line is available on their global website. <https://www.gudel.com/>

LINEAR MOTION PRODUCTS

ZIMMER GROUP

The recipe for success needs good ingredients. The product range is very diverse. Today more than ever, the Zimmer Group stands for innovative ability that is made in Germany.

Products at the cutting edge of technology, around the world, at all times.

The Know-How Factory reaches more than 125 countries through its sales network. The group guarantees comprehensive and transparent service for all components and solutions within each individual technology sector.

THE KNOW-HOW FACTORY combines technologies from handling, damping, linear, processing, tooling and machine tooling technology. For every industry. From a single source. Worldwide – the Zimmer Group is a global player.

DC Auto-Motion is the official distributor of Zimmer's range of products including its Linear technology, handling technology, damping technology, and machine tooling technology.

LINEAR MOTION PRODUCTS

ROLLON S.P.A ITALY

Linear bearings producer Rollon Italy, acquired Linear bearing producer T-Race Italy during 2018. ROLLON has more than 40 years' experience in developing Linear Bearings, based on C-shaped cold-drawn profile, The company has 600 employees and 9 branches internationally. The product range is divided in 3 groups, i.e. Linear bearing based on roller sliders and C/shaped rails / Worlds widest range of Industrial Telescopic Slides / Wide range of Linear Actuators.

During late 2018, Rollon has merged with the TIMKEN group.

DC Auto-Motion is an official supplier of Rollon's full range of products. Rollon's entire product range is available on their website. <https://www.rollon.com>

(An electronic product catalogue is available on request.)

ROLLON[®]
BY TIMKEN

COUPLING AND MACHINE ELEMENT PRODUCTS

NABEYA BI-TECH KAISHA CO. LTD JAPAN, (NBK)

Nabeya Bi-tech Kaisha has a long history since 1560. Incorporated in 1940 as a modern manufacturer, it offers uniquely designed machine components with NBK brand to worldwide customers. NBK develops, manufactures, and sells Miniature Couplings, Special Screws and Machine Elements.

NBK products are used in advanced industries, such as manufacturing equipment for semiconductors, robotics, machine tools and medical devices.

DC Auto-Motion is the official distributor for NBK's entire range of products. NBK's entire product range is available on their website. <https://www.nbk1560.com>

(An electronic product catalogue is available on request.)

PRODUCT CERTIFICATIONS

Our various manufacturers are all ISO 9001:2008 and TUV Certified as well as RoHS Compliant.

WE ARE CURRENTLY SUPPLYING THE FOLLOWING INDUSTRIES:

- Automotive; Vehicle, Tyre, Airbag, Seatbelt
- Automation and Integration
- Specialized inspection machine and equipment builders
- Plasma and Laser Cutting Machine manufacturers
- Fire truck equipment manufacturers
- Aviation
- Structural Engineering
- Steel Pipe Manufacturers
- Simulating machine manufacturers
- Material Testing Equipment Manufacturers
- Mining Equipment Manufacturers and Suppliers
- Sanitary ware industry
- CNC Retrofits; Machine Tools Linear Guide replacement parts
- Bearing resellers
- Steel cutting machine manufacturers
- Packaging machine manufacturers
- Plastic Injection Moulding Manufacturers
- Litho Printing industry
- Robotic automation, Gantry, Grippers
- Railway industry
- And many more...
